

I am contacting the FCC to protest the illegal, and clearly undemocratic decision, by Sinclair Broadcasting to demand their stations air an anti-Kerry documentary. It is not serving the public interest, is one-sided, and must be stopped.

This is one of the dangerous repercussions of corporate consolidation controlling the airwaves. Our country has always been a strong opponent of government-sponsored media found in non-democratic countries. This is no better than that.

Please do your job to protect our airwaves from "corporate news", which is just badly disguised propanganda.

Show strength! Stop Sinclair Broadcasting immediately from airing this Kerry smear documentary. Please strengthen the laws to protect diversity in news organizations before it is too late for this country.

Thank you.
